Montana Forest Management is a forest consulting, forest contracting, and forest management business. As a forest consultant, we strive to provide clients with correct, up to date information regarding the clients' forest and forest lands. As a forest contracting business, we have the capability to contract with clients for a wide variety of forest management services. As a forest management business, we strive to incorporate clients' goals with acceptable forest management practices to produce a healthy forest and forest plan meeting clients' objectives.
